Corpurile de iluminat au un impact major în amenajarea oricărui spațiu, fie că vorbim despre apartamente rezidențiale, birouri sau sedii comerciale.

Trecând de **latura funcțională**, acestea pot crea iluzia unui spațiu mai mare, un **ambient relaxant** sau un **mediu care stimulează imaginația și productivitatea**. Selecția corpurilor de iluminat potrivite este o adevărată artă, iar din acest considerent venim în întâmpinarea dumneavoastră cu o gamă complexă de soluții, potrivite nevoilor și preferințelor dumneavoastră.

Astfel, dacă v-ați îndrăgostit de **stilul de amenajare clasic, tradițional** sau **romantic** și vă doriți să puneți în aplicare un concept de design interior în acest registru, vă propunem produsele din **categoria Klausen Clasic**.

Corpurile de iluminat din colecția Clasic reușesc să imprime un caracter nobil încăperilor în care sunt integrate, inspiră familiaritate și oferă un **iluminat ambiant echilibrat**. Datorită cromaticii calde și a designului chic, prețios, ele redau spațiului amenajat un farmec atemporal, rafinat, și subliniază eleganța stilului clasic.

Veți regăsi în paginile următoare o mulțime de opțiuni care s-ar potrivi perfect într-un astfel de decor: **aplice, candelabre, plafoniere, lustre, suspensii, pendule, veioze** sau **spoturi**. Vă invităm să le descoperiți pe toate!

Lighting fixtures have a major impact in interior design, whether we're talking about residential apartments, offices or commercial buildings.

Going beyond **the functional aspect**, lighting can create the illusion of a larger space, a **relaxed environment**, or **an ambiance that stimulates imagination and productivity**. Choosing the right lighting fixtures is an art, so we provide a complex range of solutions, to make sure you'll be able to select what best suits your needs.

Thus, if you admire **the classic, traditional, or romantic interior design style** and plan on implementing this concept in your next projects, you might want to consider the **Klausen Classic collection**.

The Classic lighting fixtures manage to enhance any living space: they exude nobility, inspire familiarity and provide **balanced ambient lighting**. Due to their warm chromatic color scheme and chic, dainty design, they instill a timeless, refined charm in any space, and highlight the elegance of classic interiors.

In the next few pages, we showcase a wide array of lighting fixtures that would fit perfectly in such a decor: **wall lamps, chandeliers, ceiling lamps, pendants, lamps** or **spotlights**. It's time to explore all of them!

SEMNIFICAȚIA GRADELOR DE PROTECȚIE / THE SIGNIFICANCE OF IP PROTECTION DEGREES

Protecția corpurilor de iluminat la pătrunderea particulelor solide și a umidității este exprimată în grade IP. Prima cifră corespunde gradului de protecție la particule solide, a doua la protecția împotriva apei/umidității, conform datelor de mai jos:

Prima cifră IP/First IP digit:

IP_2

Protejat contra pătrunderii corpurilor solide mai mari de 12 mm.
Protected against the ingress of solid bodies larger than 12 mm.

The protection of lighting fixtures against ingress of solid foreign objects and against harmful ingress of water/moisture is expressed by IP degrees of protection. The first digit shows the degree of protection against solid particles, the second digit indicates the extent of protection against water/moisture. Please consult the information below:

A doua cifră IP/Second IP digit:

IP_1

Protejat la picăturile de apă care cad vertical (condens).
Protected against vertically falling drops of water (condensation).
