MODERN

indoor lighting catalogue

2025

Viziunea în designul corpurilor de iluminat este o îmbinare a artei cu știința. Ea implică o înțelegere profundă a nevoilor utilizatorilor, a tehnologiilor emergente și a tendințelor estetice. Lucrând îndeaproape cu partenerii noștri, de la retaileri, proiectanți până la ingineri și designeri, am dezvoltat un portofoliu de produse care să satisfacă cele mai exigente cerințe ale pieței de iluminat din zilele noastre.

Noul nostru catalog **Klausen Modern** reunește o selecție unică de corpuri de iluminat, concepute să îmbogățească și să transforme orice spațiu într-o experiență estetică deosebită.

Fie că vă doriți o atmosferă minimalistă, accente industriale sau un aer modern și elegant, vă invităm să descoperiți particularitățile celor **8 colecții**.

Alegeți iluminatul care reflectă armonios stilul și atmosfera dorită pentru casa sau afacerea dumneavoastră!

RO

EN

Our vision in lighting design is a fusion of art and science. It involves a deep understanding of user needs, emerging technologies, and aesthetic trends. By working closely with our partners, from retailers and designers to engineers and project planners, we have developed a portfolio of products that meet the most demanding requirements of today's lighting market.

Our new **Klausen Modern** catalogue brings together a unique selection of lighting fixtures, designed to enhance and transform any space into an exceptional aesthetic experience.

Whether you desire a minimalist atmosphere, industrial accents, or a modern and elegant touch, we invite you to discover the unique features of the **8 collections**.

Choose lighting that harmoniously reflects the style and atmosphere you desire for your home or business!

A modern interior space featuring a large mural of a peacock and tropical foliage on a wall. A glass partition separates the living area from a kitchen with a stainless steel range hood and oven. In the foreground, a round black table holds a magazine, a bowl of snacks, and a vase with dried grasses. A teal sofa is partially visible on the left.

A modern bathroom vanity featuring a white countertop and a large, frameless mirror. The wall behind the vanity is covered in white subway tiles. To the left, a window with a black frame provides a view of lush green trees. Below the countertop, there are white cabinets and a dark wood open shelf holding folded towels. A bright yellow banner is overlaid on the image, containing the word 'WELLNESS' in bold, black, uppercase letters.

Tensiunea de alimentare la toate produsele este între 220-240V ~ 50Hz

Supply voltage for all products is between 220-240V ~ 50Hz

E/F/G

Clasele energetice, conform noilor reglementări, pentru corpuri de iluminat cu sursa inclusă și care nu poate fi înlocuită fără distrugerea corpului, sunt de la A la G. Litera indică încadrarea produsului într-o clasă energetică.

The new energy classes, according to the new regulations, concerns luminaires where the light source cannot be removed without destroying it, and ranges from A to G. The letter indicates the product's energy class.

Funcția RGBW este inclusă
The RGBW function is included

Illuminare de fundal cu LED-uri roșu, verde și albastru
Backlighting with red, green, and blue LEDs

SEMNIFICAȚIA GRADELOR DE PROTECȚIE / THE SIGNIFICANCE OF IP PROTECTION DEGREES

Protecția corpurilor de iluminat la pătrunderea particulelor solide și a umidității este exprimată în grade IP. Prima cifră corespunde gradului de protecție la particule solide, a doua la protecția împotriva apei/umidității, conform datelor de mai jos:

Prima cifră IP/First IP digit:

IP 2_ PROTEJAT CONTRA PĂTRUNDERII CORPURILOR SOLIDE MAI MARI DE 12 MM.
PROTECTED AGAINST THE INGRESS OF SOLID BODIES LARGER THAN 12 MM.

IP 4_ Protejat contra pătrunderii corpurilor solide mai mari de 1 mm.
Protected against the ingress of solid bodies larger than 1 mm.

IP 5_ Protejat contra pătrunderii prafului fără presiune.
Protected against the ingress of dust without pressure.

IP 6_ Protejat total contra pătrunderii prafului.
Completely protected against the ingress of dust.

The protection of lighting fixtures against ingress of solid foreign objects and against harmful ingress of water/moisture is expressed by IP degrees of protection. The first digit shows the degree of protection against solid particles, the second digit indicates the extent of protection against water/moisture. Please consult the information below:

A doua cifră IP/Second IP digit:

IP _1 Protejat la picăturile de apă care cad vertical (condens).
Protected against vertically falling drops of water (condensation).

IP _4 Protejat contra stropilor de apă care ajung din orice direcție.
Protected against water drops splashing from any direction.

IP _5 Protejat împotriva jeturilor de apă din toate direcțiile, cu presiune egală cu 0,3 bari.
Protected against water jets from any direction, with pressure equal to 0.3 bar.
